Dear Symn,

**RE: LAST WARNING**

Your vendetta against Terrance Goldberg and the OLSC and the Law Society must cease forthwith if you are to remain employed by this firm. If the Police wish to take action, they can and you can assist their investigations. But the stream of letters and publication of correspondence on the internet must cease.

If you do not cease doing so or if you chose not to, that is a matter for you, but your employment will be terminated immediately. If you use any of the resources of this firm to continue this crusade your employment will be terminated immediately. If you speak with my clients of other invitees into my office about your issues with Goldberg or the OLSC/Law Society and or show then your letters you write, or your websites, you will be terminated immediately.

You have the option of bring proceedings in Court, which you have chosen not to do. After AVO matter with Mr Goldberg, you promised me it would cease. What was your private matter you have brought into my office and made it a matter of concern which affects my reputation and potentially my livelihood.

Yours faithfully  
**Beazley Boorman**
